

JORDAN
SCHOOL DISTRICT
IMMUNIZATION CONDITIONAL ENROLLMENT NOTICE

Date: _____

To the parent/guardian of _____:

The State of Utah requires that all students enrolled in public schools are current on required immunizations or have provided a medical or personal exemption from immunization (Utah Code §53G-9-302). Based on the information available, your student is not compliant with the following vaccination requirements:

Vaccination	Number of Missing Doses

As a result, this letter serves as your notice that your student is now conditionally enrolled and has 30 days to either:

- Receive the vaccinations listed above and/or make appropriate progress towards receiving these vaccinations following approved vaccination schedules, or
- Submit a personal vaccine exemption.
- Submit a medical exemption along with a written notice signed by a licensed health care provider

Please consult with your healthcare provider for information on vaccine scheduling.

Vaccine clinic information is available at <https://immunize.utah.gov/locate-a-clinic/>.

Information on the requirements for exemptions is available at <https://immunize.utah.gov/early-childhood-and-school-requirements/#immunization-exemptions>

If the school does not receive documentation of vaccine compliance, satisfactory progress towards compliance, or a vaccine exemption by _____, your student may be subject to exclusion and withdrawal from school.

Please contact the school with further questions.

Sincerely,

Principal
